**EYNESBURY**  
PRIMARY SCHOOL

**For creative  
and critical thinkers...**

**Empowered as partners  
in their learning...**

**Nurtured and challenged  
in an aspirational  
learning culture.**

# Eynesbury Primary School's student-centred approach is predicated on individual learning needs, underpinned by high expectations for all and a commitment to student wellbeing.

Our teachers and education support staff work collaboratively to maximise educational outcomes for every child. Our team understands the importance of genuine connection within and beyond our school community and work diligently to develop positive relationships with our students and their families.

## **Our Mission**

Our mission at Eynesbury Primary School is to ensure the learning and achievement of every child and to empower young people and their community to work together in this pursuit.

## **Our Vision**

Our vision is for our students to become creative and critical thinkers, empowered to positively impact both their school and their community whilst working in partnership with their teachers to monitor their progress, identify learning goals and collaborate with their peers.

## **Learning at Eynesbury Primary School**

Our learning program is predicated on instruction that is explicit and direct and is focused on developing in students a broad knowledge base instrumental to their reading comprehension. Students at Eynesbury Primary School are supported with the necessary foundations in their core studies (literacy and numeracy) via an approach that is informed by best practice, research and evidence.

This learning is further supported by exposure to a rigorous Humanities and Science Curriculum, carefully scaffolded to ensure students develop a broad and applicable knowledge base and cross-curricular awareness and aptitude. This is further supported by our Specialist Program, where all students from Prep-to-Year 6 undertake STEM, Physical Education and the Arts (Visual and Performing).

## Our Values

Our values are Excellence, Integrity, Community and Kindness:

We embrace high expectations for ourselves and our community and strive for **excellence** in all endeavours.

We act according to our values, demonstrating **integrity** through honesty and trust in each other.

We come together as a learning **community** of students, teachers and families in a way that represents the hopes and aspirations of the Eynesbury Township.

We demonstrate **kindness** towards each other and to ourselves.

## Wellbeing and Co-Curricular Programs

Central to the way in which we support students has been the development of our Wellbeing and Co-Curricular Programs, led by our dedicated wellbeing coordinator and represented within our learning program and in the wide range of programs delivered here at the school, from Breakfast Club, to social skills groups and lunchtime clubs and activities.

Students at Eynesbury Primary School also have the opportunity to compete in sports through School Sports Victoria, in student and environmental leadership and in STEM-based challenges and competitions including Robotics.
